DEATH BUBBA

Death Bubba is a very popular indica strain that hails from Vancouver, British Columbia. BC Bud has long had a reputation as some of the best in the world and the creation of Death Bubba only helped reinforce that notion.

The strain is rich in a-pinene which, on top of helping improve memory, also acts as an bronchodilator, making it effective for those suffering from asthma by helping open your airways in the respiratory system.

Death Bubba also contains humulene which, works to help suppress appetite, something that can be very beneficial when trying to avoid the munchies. A potent and sedating cross between Bubba Kush and Death Star, the strain is an instant favourite for many users, not only for its ability to relax your body as your mind soars but it's delicious sweet pine taste, as well.

JUNGLE CAKE

Jungle Cake is a balanced hybrid that stems from a cross between Wedding Cake and White Fire #43. It earns its namesake with its sweet berry and marshmallow taste, as well an aroma that is quite earthy, carrying hints of spice.

The high begins in your mind and slowly builds to create an uplifted feeling of joy. It's a truly well balanced hybrid as it contains near equal parts of limonene and b-caryophyllene. Limonene is the ideal terpene for hybrids as it offers a energetic buzz while at the same time preventing anxiety.

Jungle Cake is a great strain for individuals who struggle with anxiety and/or depression as it instills a sense of tranquility and may also make you feel more sociable.
